

A Satisfying Career in Home Care

At Atrio Home Care, we value each and every employee. As such, we strive to create a culture that nurtures personal success and provides tangible rewards, offering an inclusive, diverse environment that celebrates opportunity and promotes personal growth. With that, it is important to hear from our employees about how well we're delivering on those notions.

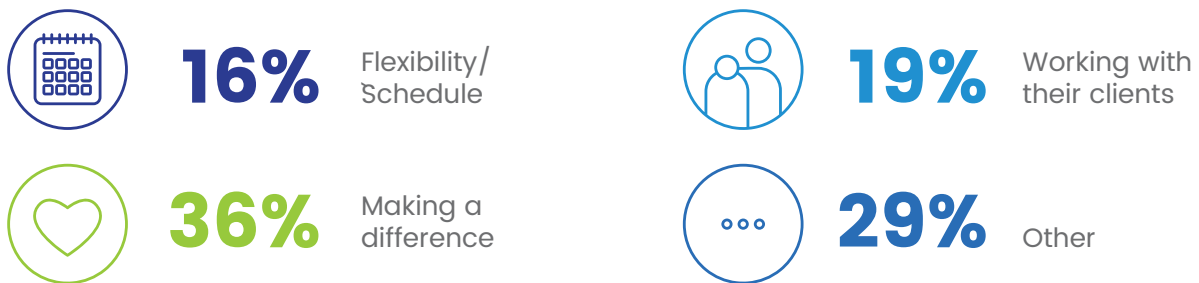

This past May, we sent a survey to 52 field staff across the Grand Rapids and Lakeshore divisions of Atrio Help at Home.

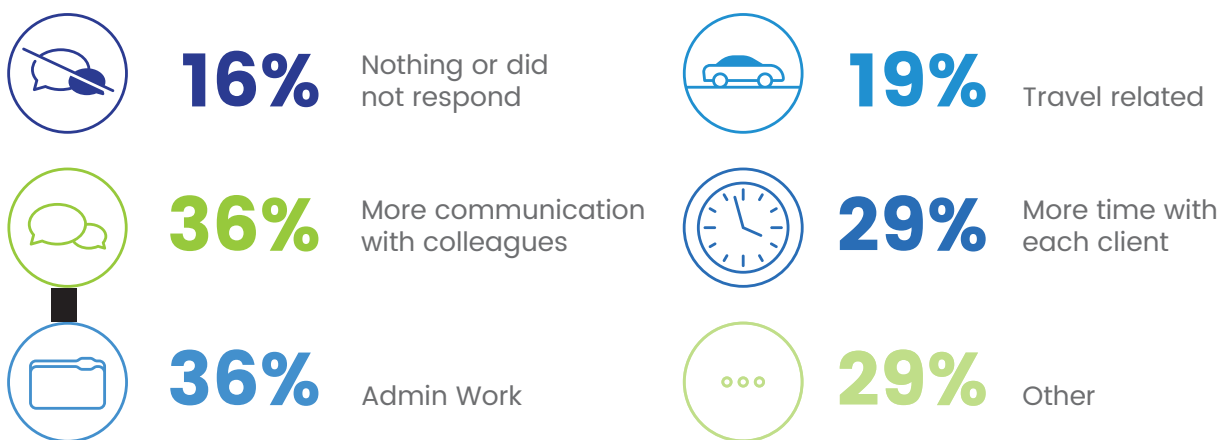

I like the flexibility of my schedule and that we are required only one weekend a month. I appreciate our supervisors and nurses who are caring and easy to work with!

“What do you like most about your job?”

“What is one thing you would change about your job?”

“It’s a rewarding experience. I can see my clients improve when they know and see that a caregiver cares about them.”
